29 June 1959

MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: Chicago Aerial Industries' Study for the
U.S. Navy, "Aerial Reconnaissance in
Support of Missile Warfare"

1. Enclosed herewith are memoranda of 18 June and 26 June 1959 from one of my special assistants, [] on the subject and related programs.

25X1

2. My eye was caught by paragraph 2 of the 26 June memorandum wherein [] reported that Navy OP 07 had asked Navy/PIC to recommend packages for Discoverer. This would appear to me to be an example of Navy random shooting in R & D and perhaps you know all about it.

25X1

3. The memoranda are provided for your information and any follow up effort you would like your staff or PIC to make. It is requested that the memoranda be returned to us when they have served your interest.

ARTHUR C. LUNDAHL
Director,
Photographic Intelligence Center

Enclosures:

1. Memo dtd 18 June 59
[] to D/PIC
2. Memo dtd 26 June 59
[] to D/PIC
